Delivery

Price includes UK Mainland Delivery.

Strap buttons

No strap buttons are fitted from factory, but these can be fitted in our workshop if required, cost of this is £4.80 per strap button.

Transit protection of higher value ukuleles

If you would like us to send this particular ukulele, please note that a hard case will be required to protect the instrument in transit. We have some fantastic deals on hard cases- please contact us for current offers.

Instrument set up

Every instrument is set up, this includes fret levelling and re-crowning where required, string height adjustment at top nut and bridge and any other adjustment necessary. We set up instruments to standard workshop or manufacturers specifications but can adjust the set up as required by the player.

Left handed

We can convert most ukuleles to left hand, there is no labour charge for this when purchasing a new ukulele, all we ask is for you to purchase a new set of strings, cost of strings is around £6.40.

Low G

Tuning is the standard C-G-E-A with a high G. A low G can be fitted if required (no additional cost)
