Short Description

A high quality soprano ukulele bag with thick 20mm padding

Description

These bags by Madarozzo are highly protective with 20mm padding, very practical having lots of built in pockets and a back strap, and are also nicely made with good materials and well thought out design and looks.

There are Madarozzo bags that are cheaper with less spec, (and also more expensive) but we think this one is a great balance of quality and value for money.
